

# **Accident Insurance**

can pay you money for covered accidental injuries and their treatment.

#### How does it work?

Accident Insurance can pay a set benefit amount based on the type of injury you have and the type of treatment you need. It covers accidents that occur off the job. And it includes a range of incidents, from common injuries to more serious events.

### What's included?

## **Sickness Hospital Confinement Benefit**

This benefit pays a daily amount if you're in the hospital for a covered illness. It's available to each family member who has Accident coverage. You can receive \$200 per day. Coverage for children is 75% of that amount.

– The benefit has a 12-month pre-existing condition limitation. You and your spouse need to answer some health questions to receive this benefit.

## Why is this coverage so valuable?

- It can help you with out-of-pocket costs that your medical plan doesn't cover, like co-pays and deductibles.
- You're guaranteed base coverage, without answering health questions.
- The cost is conveniently deducted from your paycheck.
- You can keep your coverage if you change jobs or retire. You'll be billed directly.

### Who can get coverage?

You	If you're actively at work*	
Your spouse	Ages 17 and up	
Your children	Dependent children from birth until their 26th birthday, regardless of marital or student status.	

Since our founding in 1848, Unum has been a leader in the employee benefits business.

Innovation, integrity and an unwavering commitment to our customers has helped us become a global leader in financial protection benefits.

\*Employees must be legally authorized to work in the United States and actively working at a U.S. location to receive coverage. Spouses and dependent children must reside in the United States to receive coverage.
